

## System 636<sup>®</sup> PVC & CPVC Termination Kits

### Standards:

### Three ULC S636 certified ways to terminate your System 636<sup>®</sup> Flue Gas Venting system

**Universal Concentric Vent Kits (UCVK<sup>™</sup>):** The System 636 UCVK<sup>™</sup> offers horizontal coaxial termination specifically for venting tank-less water heaters installed on an exterior wall. An engineered air intake hub pivots to accommodate the spacing requirements between the fresh air and exhaust collars for most brands of tankless water heaters offered on the market today. Designed utilizing the fundamentals of the Concentric Vent Kits, the UCVK is made to optimize productivity through ease of installation.

**Concentric Kits (PVC & CPVC):** System 636 Concentric Kits, are available in a variety of lengths and come in 2", 3" and 4" diameters. These "pipe-in-pipe" kits allow for both exhaust and intake pipes to penetrate the roof or side wall through only one hole. The concentric vent kits are now certified with mechanically fastened rain caps. When installed with the included stainless steel screw/nut the rain cap can be easily removed for cleaning or replacement. Vent screens and round face plates for side wall terminations are also available, see reverse.

Longer barrel length options allow for greater flexibility during installation. Required for steeper pitched roofs, and is ideal for high snow load areas.

Universal Concentric Vent Kits	
Size	Product Code
3" PVC	196256
3" CPVC	197256

Concentric Kits		
Size (in)	PVC (white) Product Code	CPVC (grey) Product Code
2 x 16	196005	197040
2 x 28	196105	197033
2 x 40	196125	–
3 x 20	196006	197009
3 x 32	196106	197107
3 x 44	196116	197117
4 x 36	196021	197021

Vent Screen not included

The System 636<sup>®</sup> UCVK<sup>™</sup> in PVC is shown

**Low Profile Termination Kits (PVC):** The kits offer a lower profile alternative to the typical two pipe side wall termination kit. They include integrally molded vent screens, and the design neatly disguises both the intake and exhaust. Each kit is molded with a ULC S636 certified beige PVC compound.

Low Profile Termination Kits (PVC)	
Size	Product Code
2"	196984
3"	196985
4"	196986

**Wall Termination Kits (PVC):** For a traditional vent style, IPEX's PVC Side Wall Vent Kits are available in convenient 2", 2-1/2" and 3" sizes. These PVC kits require only two small wall penetrations for intake and exhaust. Kits include a white finishing plate with a self sealing foam back that can be screwed to the exterior wall. Vent screens not included.

Wall Termination Kits (PVC)	
Size	Product Code
2"	081216
2-1/2"	081218
3"	081219

## System 636 Termination Accessories

**Vent Screens:** IPEX also offers 2", 3", 4", 6" and 8" vent screens to prevent debris and rodents from entering and plugging the venting system. The uncertified vent screens can be friction fit in any IPEX termination kit.

Vent Screens	
Size	Product Code
** 2"	196050
** 3"	196051
** 4"	196052
* 6"	196090
* 8"	196091
