

## Endura® XL Grease Interceptor Monitor

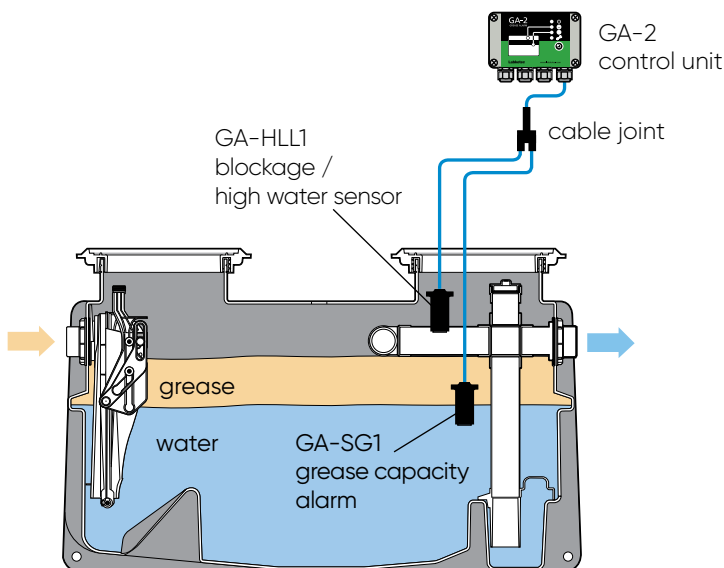

As jurisdictions move towards modernizing local requirements for the management of fats, oils, and grease, tools to ensure compliance are becoming increasingly important to the industry.

The dual Endura® XL Grease Interceptor Monitor and Alarm monitors the status of the unit and alarms when it is time to schedule maintenance. It also safeguards the food service facility by monitoring for high liquid level events, which may signal a blockage and impending back-up.

### Endura XL Grease Monitoring Solution Labkotec GA-2 Grease Interceptor Monitor and Alarm

Part Number	Product Code
40100MS	766157
